**Report of short-term online course on Data Analysis using R**

Data Analysis using R

A Report

The Department of Economics organised a short-term online course on “Data Analysis using R” (DAR/Apr2022) for the students and faculty members of Delhi University. This certificate course was designed for beginners who knew nothing about R. Given the mismatch that exists between education and employment it becomes essential for education institutions to impart knowledge that gives practical training to our students and enhance their skills.

We started with the basic knowledge about R and slowly built upon that. We used the RStudio, an integrated development environment (IDE) for R. This course helped participants learn R and its use in research in social sciences. Participants learned how to manage large datasets, clean and visualise data, do econometric and statistical analysis of datasets.

**Duration**

The certificate course was of 30 hours duration. There were 2 hours of live online sessions every day for 15 days over Google Meet. The sessions were held from 12 April 2022 to 29 April 2022. The inaugural session was addressed by Dr. Indranil Chowdhury and Dr. Varun Bhushan. Sh. Indranath Mukherjee had also addressed the participants in the inaugural session. Mr Suryapratim Sarkar had addressed the valedictory session. Two students, one of them was from abroad had shared their experiences of doing this course in the valedictory session. Some of our participants were faculty members of Delhi university colleges and some were research scholars.

**Course Fee**

A registration fee of Rs 500/- was taken from each participant. 108 participants registered for the course.
