IQAC : TORCH BEARER OF QUALITY

Education is a fundamental right to be enjoyed by each Indian citizen. Quality education opens up all vistas for the have nots as much as for the privileged. Education is the only equalizing force in this highly inequitable world. It is educational institutions, including our own, that are adding to global human capital and to the might of India by providing quality, affordable education to the vulnerable. Generation Y is the entrepreneurial age, imbued with implosion of knowledge and skills keenly awaiting expression and application. This generation wishes to act as change agent, eager to apply its learning for transforming economy, polity, and society. It is Generation X, our generation, which has the task and responsibility to, with in quotes, 'educate' today's youth so as to transform them into valuable human assets. Our college-through Internal Quality Assurance Cell(IQAC)-has been trying to consistently create multidimensional experiences for the stakeholder-students, teachers, and administration-aiming towards creating quality professional assets who would contribute in every sphere of our being right since their admission into our college, during their productive career, and beyond. It has the vision to transform PGDAV College into a leading educational institution that contributes to

the development of economy and society by sharpening latent leadership, entrepreneurship, and intellectual talent. IQAC seeks to foster a worldview that promotes diversity, inclusion, and ethical participation in the inter connected world. IQAC is committed to promote a culture of academic excellence bench marked to the best institutions among our peers.

To achieve all this IQAC acts as planner, creator, facilitator, and regulator of quality in all sphere of functioning of college-academic, administrative, financial, co-curricular, and extra-curricular. It provides avenues of learning, further education, and training to all-students, teachers, and administrative staff-by having a calendar full of events throughout the year. To mention just a few through IQAC support more than 120 lectures were organized for our students on topics of varied interest, mainly focussing on building of academic process and enhancing their employability on the other. Nearly 8-10 members of administrative staff were sent for advanced training in behavioural skills and ICT. Likewise nearly 70 odd faculty members attended various conferences, FDPs, etc. IQAC itself organized various activities, including an FDP.

The faculty members should be encouraged to use the library facilities on a daily basis and share their readings with their colleagues. He also suggested that the College should invest in going through the upcoming NEP and plan the future of the College in conjunction with it. It was also pointed out that due to COVID, the logistics of offering skill development courses is being hampered and we should find ways to tackle such issues

Dr. Satish Khosla offered to help the College to collaborate with a private company and offer training on block chain technology for our students. In fact he suggested that once set up the College could offer the same course to the students of other DAV institutions. This collaboration he said would come at zero cost to the College. He also expressed keen desire to be associated with the steps that College would take regarding making the campus PwD friendly. He offered to provide funding for the QR coding (??).

Dr. Mukesh Agarwal also emphasized the important role that alumni can play in the development of the College.
