Message from the

Hon'ble Vice Chancellor

D*ear Aspirants,*

It gives me immense pleasure to welcome you all to this century old premier teaching and research University, an Institution of Eminence, for admission to the Undergraduate programs for the Academic year 2024-25.

Aligned with the vision of Viksit Bharat@2047, the University is prepared to nurture the young minds who are leaders of tomorrow and in whose hands this vision shall be realised. As upholder of the constitutional and democratic values, the University offers equal opportunities to all the meritorious youths of this country, even those in the remotest part of Bharat, to join this University by providing a level playing field, through the Common University Entrance Test (CUET) conducted by the National Testing Agency (NTA). It is assured that the objective mechanism of admission followed, will observe transparency and exhibit accountability in every process involved.

The enriched pedagogical perspective, rigorous research orientation with germanely innovative academic and extra-curricular approach adopted by the University will provide a fertile ground for developing the potentials of the youths suited to their innate talent and professional interest.
It is a matter of immense pride that our University has stood tall in various academic rankings, both at the National and International level. National Institutional Ranking Framework (NIRF) has ranked the University of Delhi at 11th among the Universities category and ranked 22 among all categories of Academic Institutions.

QS Sustainability ranking 2024 has placed the University of Delhi at No.01 position in India, 52 in Asia and 220 Globally. QS Asia University ranking 2024 has placed the University of Delhi at 11 for Southern Asia and 94 for Asia. QS World University ranking 2024 has placed the University of Delhi at 407 Globally. Center for World University rankings (CWUR) has placed University of Delhi at 07 for the year 2023. Times Higher Education World University Ranking 2024 has put the University of Delhi in the range of 801-1000 with the national rank of 25. These National and International rankings clearly and unambiguously reflect the rich legacy of quality teaching-learning, cutting edge research and remarkable social outreach of the University of Delhi being practiced for over a Century of its existence.

The cutting-edge research endeavours of the University have seen new highs with h-Index of the University touching 268 in 2023, which is the highest among all universities in India. There has been 12% increase in research publications in the SCOPUS Indexed Journals in the last one year.

The rich alumni base of the University in every walk of life, not just nationally but also globally, is a living testimony of the superior academic credentials of this University.

I wish you an enriching and fulfilling experience while immersing yourself in the academic ambience, research depth, enthusiastic extra-curricular and social outreach. The best youth talent of our Nation admitted in this University will enrich our "academic capital" and constructively contribute towards Nation building.

Best Wishes!

Yogesh Singh
Vice Chancellor
University of Delhi

UNIVERSITY OF DELHI

6.5+ lakh Students

16 Faculties

86 Departments

91 Colleges

The University of Delhi is a premier University of the Country with a venerable legacy and international acclaim for the highest academic standards, diverse educational programs, distinguished faculty, illustrious alumni, varied co-curricular activities and modern infrastructure. Over the many years of its existence, the University has sustained the highest Global standards and best practices in higher education. Its long-term commitment to nation-building and unflinching adherence to universal human values are reflected in its motto: 'Nishtha Dhriti Satyam' 'निष्ठा धृतिः सत्यम्' (Dedication, Steadfastness and Truth).

Established in 1922 as a unitary, teaching and residential University by the Act of the then Central Legislative Assembly, a strong commitment to excellence in teaching, research and social outreach has made the University a role model and trendsetter for other Universities.

The President of India is the Visitor, the Vice-President is the Chancellor and the Chief Justice of the Supreme Court of India is the Pro-Chancellor of the University. Beginning with three colleges and 750 students, it has grown into one of the largest universities in India with 16 faculties, 86 academic departments, 91 colleges and over seven lakh students. A total of 540 programs offered by the University are approved by Academic and Executive Councils.

Today, the university boasts of as many as 15 big libraries apart from libraries in colleges. The University Science Instrumentation Centre (USIC), situated close to the Physics and Chemistry Departments, houses several sophisticated and high-end research instruments. These instruments are used quite frequently by Teachers and Research Scholars of postgraduate departments of the University and many other institutions in Delhi and its neighbourhood. The University has recently laid a fiber-optic network in the North and the South Campuses, connecting all colleges and departments.

University of Delhi was established in 1922.

Study at UNIVERSITY OF DELHI

The laboratories at the University of Delhi are synonymous with excellence, boasting cutting-edge equipment. These well-equipped facilities provide a conducive environment for the pursuit of the latest and most innovative research. Meticulously managed, these laboratories serve as incubators for scientific exploration, fostering a culture of inquiry and discovery. The commitment to staying abreast of technological advancements has positioned University of Delhi's laboratories as hubs for groundbreaking research across diverse academic domains.

Placement

The main endeavor of the placement cells at the University of Delhi is to get students placed in reputed multinationals, government organisations, NGOs and the private sector. The cells assure logistic support to the visiting companies at every stage of the placement process by making University's infrastructure available to them. The placement cells also liaison with corporates to provide suitable jobs and internships for the students completing their studies from the University of Delhi.

Co-Curricular Engagements

University students get a special chance to showcase their talents and skills at the College level and the Inter-University levels. Students get numerous opportunities to participate in NCC camps, cultural festivals, adventure camps, sports meet and competitions.

Undergraduate Curriculum Framework
UGCF – 2022

The UGCF - 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education as enshrined in the National Education Policy (NEP – 2020) and endeavors to synchronize these cornerstones while charting the road ahead for the state of higher education.

The University of Delhi, a premier seat of teaching, learning, and research in higher education, acclaimed nationally and internationally, has nurtured the quest for reaching the peak in every sphere of education, in its true sense, in its contribution to the nation-building. Moreover, being a Central University mandated to act as the torch bearer in expanding the horizons of human resource development through the expansion of higher education, it has always paid an adequate premium towards constructive and meaningful innovation as a regular feature in its undergraduate curriculum development over the years.

A reflection of such sustained and continued endeavour is amply exemplified in the successive revision of undergraduate curricular framework over the decades, keeping pace with the emerging trends in higher education in the new millennium globally and its critical importance in enriching the youth of our nation, well equipped with the prevailing priorities of skill development through innovative and practical oriented teaching-learning more than anything else.

To actualize the noble objective, as succinctly brought out in the NEP - 2020, the University of Delhi has endeavored to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework in line with the objective and underlying philosophy of the NEP - 2020 to capture the imagination of the youth of our nation which depicts the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the University of Delhi is the UGCF - 2022 which not only underlines the hearth and soul of the NEP - 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environment of the University of Delhi and its constituent Colleges.

B.A. (Hons.) Urdu

Urdu Literature in the Urdu language has a history that is inextricably tied to the development of Urdu, the register of the Hindustani language written in the Perso-Arabi script. While it tends to be dominated by poetry, especially the verse forms of the ghazal and nazm, it has expanded into other styles of writing, including that of the short story or afsana. The curriculum of B. A. (Hons.) Urdu offers three major components of Urdu Language and Literature and composite culture, which include the Ganga Jamuna Tehzeeb, the vital portion of our secular heritage. B.A. (Hons.) Political Science

This program aims to expose the students to the way the questions of politics are posed and to critically pose questions on the existence in society. By introducing the philosophers from different traditions, students can answer a few fundamental political questions such as Why do we live in political communities? What is the 'best' form of government? How human nature influences political decision- making? How and in what circumstances do we need to resist bad rulers? By the end of the program, students can understand the idea of modernity and establish a connection between societal changes posed through modernity and its prescribed political suggestions.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.A. (Program)

B.A. (Program) offers a wide range of subject combinations to attract students to graduate in the subjects of his/her specialization. Colleges offer a range of B.A. (Program) combinations from which a student may choose the disciples in which he/she may like to pursue his/her further studies. The University of Delhi offers close to 190 BA (Program) combinations, thereby offering an amalgamation of different subjects. For details related to different B.A. (Program) combinations offered in various Colleges, refer to Annexure - I.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

OR

Combination II: Any one Language from List A + Any one subject from either List B1 or List B2 + SECTION III of CUET (General Test)

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects.
Note: As the weightage of the CUET Sections is not the same, appropriate proration will be done.

B.A. (Program) combination, where Mathematics/Statistics/Computer Applications/Computer Science is one of the two core disciplines, it is mandatory that the candidate must have studied and passed Mathematics in Class XII examination. Similarly, wherever a Language is being offered as one of the two disciplines, the candidate must have a working knowledge of that Language.

UNDERGRADUATE PROGRAMS IN SCIENCE, MATHEMATICS AND TECHNOLOGY

B.Sc. (Hons.) Anthropology

The B.Sc. (Hons.) in Anthropology aims for a comprehensive and integrated framework for understanding human beings and humanities and their adaptabilities across time and space dimensions. It deals with all kinds of communities, including tribal, rural, and urban societies. The curriculum is a broad framework that exposes the students to this diversity and helps them understand the challenges, best practices, and biological and cultural adaptive features of communities that have evolved in the process of adaptations and acclimatization. Anthropology as a discipline is oriented toward a holistic and relativistic understanding of humanity from both biological and cultural perspectives on the one hand and from the distant past to the present and also future possibilities.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language from List A in CUET.

B.Sc. (Hons.) Biological Science

Biological Science is an interdisciplinary science and relies on strong foundations of Chemistry, Biophysics, Biochemistry, Botany and Zoology. It aims to study the structure and function of different constituent parts/biomolecules of living organisms and their complex inter-relationships to maintain and perpetuate various life forms. The scope of Biological Science as an interdisciplinary subject is extensive. The Biological Science program at the undergraduate level has been envisioned to emphasize the importance of interdisciplinary nature underlying the study of all the aspects of structure and function of living organisms.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Sc. (Hons.) Biochemistry

Biochemistry is the branch of dynamic science that explores the chemical processes within living organisms/systems. The study of Biochemistry aims to understand how all the molecules that constitute living organisms interact to maintain and perpetuate life. It deals with the complexity of living organisms, the microscopic and macroscopic structures within organisms with specific functions, and their systems for extracting and transforming energy from the environment. This program is designed to enable the students to gain theoretical knowledge and hands-on experience in the laboratory. In addition, the program content encourages students to cultivate keen observational skills and develop the ability to analyze and interpret experimental data, making them suitable for future careers in higher education and employment in industry and research institutes.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry + Physics

B.Sc. (Hons.) Botany

The B.Sc. (Hons.) Botany curriculum offers the essential knowledge and technical skills to study plants holistically. Students would be trained in all areas of plant biology using a unique combination of core and elective papers with significant interdisciplinary components. Students would be exposed to cutting-edge technologies currently used in the study of plant life forms, their evolution and interactions with other organisms within the ecosystem. Students would also become aware of the social and environmental significance of plants and their relevance to the national economy.

B.Sc. (Hons.) Chemistry

The BSc (Hons.) Chemistry curriculum offers courses in inorganic, organic, physical, materials and analytical. The courses will train students with sound theoretical and experimental knowledge that suits the need of academics and industry. The program also offer ample skills to pursue research such as a career in chemistry and allied areas. This programis offered by one of the largest and oldest Departments in the country to produce the best minds to meet the demands of society. BSc (Hons.) Chemistry will help students make an informed decision regarding the goals they wish to pursue in further education and life.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Computer Science

The B.Sc. (H) Computer Science curriculum offers to develop theoretical foundations in computer science to build computational thinking, analytical, and problem-solving skills. The program prepares the students for higher studies in Computer Science and its applications. The course aims to produce skilled graduates with a creative mindset who can recognize a computational problem either in IT industry or society and develop effective solutions. In addition, the students develop expertise in programming skills using contemporary programming languages used by the software industry. It covers core computer science topics like computer systems architecture, data structures, computer networks, operating systems, computer graphics, algorithms, software engineering, database management, theory of computation, artificial intelligence, and information security.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Sc. (Hons.) Electronics

In recent years, Electronic Science has made unprecedented growth in new technologies, new ideas and principles. The B.Sc. (Hons.) Electronic Science curriculum offers undergraduates a complete package to understand fundamental to advanced electronics. They can equip themselves with electronics fundamentals with a comprehensive skill set compatible with industry 4.0 standards. The exhaustive curriculum will prepare them to pursue higher education and compete in the job market. The program covers embedded systems, advanced computer and data communication, robotics, control systems, VLSI Design and Fabrication, Nanoelectronics, Artificial Intelligence, Internet of Things and others.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Mathematics/Applied Mathematics + Chemistry

B.Sc. (Hons.) Geology

This program aims to develop an ability to perceive the geological processes, which generally operate at time scales ranging from days to billions of years, with the fundamental premise that the present is the key to the past. It prepares students to develop their logical thinking and communication skills with science-based imaginative perception. The ethical, societal context of applied geology in economic and environmental contexts is the fundamental balance that a geology graduate student is expected to acquire. Propagating their thoughts through presentations and participation in various related societies enhances their cultural- social-national centric thought.

B.Sc. (Hons.) Home Science

The B.Sc. (Hons.) Home Science curriculum offers the students the requisite knowledge, skills, and aptitude in all the areas of Home Science. As a discipline, Home Science integrates the ingredients of the sciences, social sciences, and technology to facilitate the study of and enhance the quality of human life. Its approach is therefore inherently interdisciplinary. As a result, students gain employment in research organizations, food and textile industries, dietetic practice, education, child development domains, accreditation of green buildings, strategic planning and communication technologies.

B.Sc. (Hons.) Mathematics

The B.Sc. (Hons.) Mathematics program aims at developing the ability to think critically, logically, and analytically and hence use mathematical reasoning in everyday life. Pursuing a degree in mathematics will introduce the students to several interesting and valuable ideas in preparation for several mathematics careers in education, research, government sector, business sector and industry. The B.Sc. (Hons.) Mathematics program covers the full range of mathematics, from classical Calculus to Modern Cryptography, Information Theory, and Network Security. The programlays a structured foundation of Calculus, Real & Complex analysis, Abstract Algebra, Differential Equations (including Mathematical Modelling), Number Theory, Graph Theory, and C++ Programming exclusively for Mathematics.

Program Specific Eligibility

B.Sc. (Hons.) Microbiology

The B.Sc. (Hons.) Microbiology program covers a wide range of basic and applied microbiology courses and courses of interdisciplinary nature. The core courses that are a part of the program are designed to build a strong microbiology knowledge base in the student and acquaint them with the applied aspects of this fascinating discipline. The student is thus equipped to pursue higher studies in an institution of her/his choice and apply the skills learned in the program to solve practical societal problems.

B.Sc. (Hons.) Physics

Physics is an experimental and theoretical science that systematically studies the laws of nature operating at length scales from the sub-atomic domains to the entire universe. The core areas of study within the disciplinary/subject area of the B.Sc. (Hons.) Physics program are: Classical and Quantum Mechanics, Electricity and Magnetism, Thermal and Statistical Physics, Wave theory and Optics, Physics of the Materials, Digital Electronics, and specialized methods of Mathematical Physics and their applications in different branches of the subject. Along with the theoretical course work, students also learn physics laboratory methods for different branches of physics, specialized measurement techniques, analysis of observational data, including error estimation, and scientific report writing. The latest addition to Physics pedagogy is computational physics, which involves adapting Physics problems for algorithmic solutions and modelling and simulation of physical phenomena.

B.Sc. (Hons.) Polymer Science

The curriculum of B.Sc. (Hons.) Polymer Science accomplishes excellence in education and research to meet the growing needs of society. This program provides an environment conducive to innovation, creativity, implementation of new ideas and team spirit to foster young and fresh talents. In addition, this program further offers awareness and understanding of polymer science's contemporary trends and growth. This will further be substantiated by enabling students in relevant academic and professional skills through self-reflections and preparing them to contribute to thegrowing discipline of polymer science and its application in everyday life.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc (Hons.) Statistics

B.Sc. (Hons.) Statistics is a three-year undergraduate program with specialization in statistics. The program fosters interdisciplinary approach to the study of Statistics, Mathematics, and Computers aiming to promote holistic education useful in handling social, economics, engineering, physical and bio-sciences problems. The curriculum is dispensed using a combination of classroom teaching, project-based learning, practical's, group discussions, presentations, home assignments, industry interactions and exposure, internships and fieldwork. The program has a unique and innovative course structure which engenders creative out of the box thinking

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination.

B.Sc. (Hons.) Zoology

Through this program, the students will be more equipped to learn and know about different human systems, their coordination and control. The Zoology degree program provides a platform to comprehend classical genetics to understand the distribution of other traits among populations, their inheritance, ethnicity and correlate with contemporary and modern techniques like genomics, metagenomics, genome editing and molecular diagnostic tools. This program's practical and theoretical skills will help design different public health strategies for social welfare. The program has been designed to provide in-depth knowledge of applied subjects ensuring the inculcation of employment skills so that students can make a career and become entrepreneurs in diverse fields of aquatic biology, sericulture, apiculture etc. After completing this program, students can contribute as policymakers in wildlife conservation, animal preservation and environment protection.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:

B.Tech. Information Technology and Mathematical Innovation (IT & MI)

This unique program offered at Cluster Innovation Centre, is designed to inculcate an innovation mindset as part of the curriculum and pedagogy. It is a 4 years program with two semesters per year. This program aims to build strong analytical skills through Mathematics and application skills of Information Technology (IT). Skilled graduates with a creative mindset for innovation and entrepreneurship are another highlight of the course. In addition to this, the program is specifically designed to boost undergraduate research. This program provides a choice-based credit system

where the students can take courses of their choice, learn at their own pace, undergo additional courses to acquire more than the required credits, and adopt an interdisciplinary approach to learning.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:

B.Sc. (Prog.) Applied Physical Science with Analytical Methods in Chemistry & Biochemistry

The program reviews the structure of the atom, which is a necessary pre-requisite in understanding the nature of chemical bonding in compounds. It provides basic knowledge about ionic, covalent and metallic bonding and explains that chemical bonding is best regarded as a continuum between the three cases. It discusses the Periodicity in properties with reference to the s and p block, which is necessary in understanding their group chemistry. The program is also infused with the recapitulation of fundamentals of organic chemistry and the introduction of a new concept of visualizing the organic molecules in a three dimensional space. To establish the applications of these concepts, the classes of alkanes, alkenes, alkynes and aromatic hydrocarbons are introduced. The constitution of the program strongly aids in the paramount learning of the concepts and their applications.

B.Sc. (Prog.) Mathematical Science

A well-structured Mathematical component in B.Sc. (Prog.) Mathematical Sciences empowers the students to: Solve problems using a broad range of significant mathematical techniques, including calculus, algebra, geometry, analysis, numerical methods, differential equations, probability and statistics, along with hands-on learning through CAS and LaTeX. One of the program's aims is to combine the principles of physics and chemistry, as supported by mathematics, to describe the foundational concepts of the physical world and apply these concepts to new situations. Collaborate with others, including multidisciplinary groups, to solve scientific problems and recognize ethical issues in each profession; logical question assertions and recognizing patterns are other highlights of the course.

Program Specific Eligibility

B.Sc. In Physical Education, Health Education & Sports

In this program, the students will be taught to meet the health, physical fitness, and positive lifestyle-related challenges faced by society members. Besides being trained in numerous sports, the program has compulsory learning of foundation and allied sports science courses. The research element embedded in the program helps students learn the data collection technique, evaluation, and interpretation of the results. This will enable students to provide necessary feedback in the related area of investigation. The students are provided with various choices in the skill enhancement course directly related to implementing knowledge in society. This program creates a strong foundation for all forms of teachers training courses in physical education & sports sciences at various levels.

Program Specific Eligibility

Candidates must appear in both CUET and Performance-based test.
Candidates must appear in CUET in any of the following subject combinations:

Combination I: Any one Language from List A + Physical Education / National Cadet Corps (NCC) / Yoga from List B2 + Any two subjects out of which one should be from List B1

OR

Combination II: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

AND

Performance-Based Test

Merit will be calculated by considering the combined 'CUET score (50% weightage) and Performance-based test score (50% weightage)'

CUET score will be the best CUET score obtained from any one of the above-mentioned combinations of subjects.

B.Com.

Commerce is visualised as a link between society and business. The nature and purpose of interaction between both have undergone tremendous change with time. Information technology has re-modelled the shape and design of the business, engendering the metamorphosis of its very nature and the matrix of societal functioning. Recognising the implications of this change, the B.Com. Program aims at building in students an understanding of the functioning and premise of the business world. To achieve this, the program offers an opportunity for students to know different aspects of organizational functioning, financial systems, understanding of the economy, laws governing business, strategies adopted by businesses to reach society, etc. The program also provides the students an opportunity to explore, experiment and equip themselves to serve society not as employment seekers but as an entrepreneur and job creators.
